FREEDOM OF INFORMATION ACT (FOIA) REQUEST NO. 89-042
DEPARTMENT OF ECOLOGY - ROGER STANLEY

Item No. 1 of the subject request is for all documents and information relating to the discharge of liquid hazardous waste to the soil column at Hanford. Item No. 2 is for all documents and information relating to the storage of listed hazardous waste in Single-Shell tanks (SST) or Double-Shell tanks (DST), which is also the subject of a May 3, 1989 verbal request to Westinghouse Hanford Company (WHC) by the requester. Item No. 3 is for all documents and information relating to the on-site treatment of listed hazardous wastes.

Because of the general description of documents requested, we have not been able to comprehensively identify all responsive documents to date. However, in the interest of providing the information sought, the documents listed below have been identified as responsive to the request, and we will continue to search for additional responsive material. If you could obtain from the requester a more specific description of the documents he seeks, that would facilitate our search.

Item No. 1 - "Preliminary Evaluation of Hanford Liquid Discharged to Ground," WHC-EP-0052, available from U.S. Department of Commerce, National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

"WHC Effluent Releases and Solid Waste Management Report for 1987: 200/600/1100 Areas," WHC-EP-0141, available at DOE-RL Public Reading room.

Item No. 2 - "242-A Evaporator Process Condensate," listing of U. S. Testing results for samples analyzed between 1985 and 1988, including "less-than" (non-detectable) values, enclosed. Please note that this is a document containing raw data that is subject to correction/change.

"Trac Computer Model," May 16, 1989, internal letter from R. J. Nicklas to D. J. Washenfelder, # 13331-89-182, enclosed.

"Potential Sources of Trace Chemicals," enclosed.
